**Automotive Security Professional**  
**P.O. Box 68**  
**Blanco, Texas 78606**

Biography of  
Jim Hetchler

After many years in the law enforcement and repossession industry I became a locksmith in 1995. Spending many hours in a Van (hands on) learning the automotive field.

Presently I am on the NASTF Committee and teach throughout the USA for ALOA, different Associations and distributors linked to locksmiths.

I established the Key Pro® Website in 2005 dedicated to the automotive industry. To date there are over 1100 members with almost 260,000 posts and over 170 training videos available.

Ten years ago I became a partner to the Just Cars show. This year I bought my partner out of the Just Cars show and formed an LLC. Each year for a weekend we gather with 500+ locksmiths to learn the latest techniques in the industry. I enjoy sharing my 12 Gigabytes of videos, articles and data I have gathered in the last 18 years. I also served as past President of the Texas Locksmith Association three terms. Promoting and teaching advanced methods of automotive key generation is a goal I embrace.

Sincerely,

*James W. Hetchler*

Jim Hetchler, C.A.L.
